NB - Please note we are not in a position to recommend our tenants but should you have any concerns, please let us know.

Approved contractors

The following list is made up of independent offsite trades who have carried out work in the boatyard in the past and are registered with us to do so and carry valid public liability insurance. We cannot vouch for service and/or quality of workmanship from these contractors and as such you should not take this list as a recommendation. However, we do monitor work where possible and encourage feedback from our owners to foster high standards. Where a contractor persistently falls short of owners expectations, they are removed from the list.

If you wish to use a contractor that is not on this list, they will need to register at the office prior to carrying out any work and must hold valid insurance. We welcome recommendations as this helps to create a more reliable list for other owners.
