

1948 Classic “Nimble” FOR SALE

NIMBLE is one of three of this class designed and built by Morgan Giles in 1948.

She is basically a scaled down version of the West Channel class, referred to by the Morgan Giles yard as 'Quay Punts'. This West of England 2.5 ton sloop was lovingly restored in 2003 and has been maintained to the highest standard ever since. In addition to good looks she has competed well in regattas.

This beautiful sloop comes with a complete history, from her build records to her refit, as featured in Classic Boat magazine in June 2004
