IMPORTANT NOTES

1. Please familiarise yourself with the WicorMarine Yacht Haven Regulations, in particular the '13. Rules for Vessels Ashore'. The Regulations can be viewed on our website (www.wicormarine.co.uk/downloads). Copies are also available from the Marina Office.
2. Please do not move shores, boat stands and other supporting structures. Ask the Marina Office if you require shores or stands to be repositioned to facilitate antifouling. We will paint the patches if you leave a small jar or tin of paint and a brush by the keel.
3. Please do not attach or lock ladders, bicycles etc to the boat stands or shores. We do not advise leaving your ladder up against the topsides for security reasons.
4. If you require electricity whilst ashore, please contact the Marina Office. A minimum £10 charge will apply.
5. Please display a parking permit in your car windscreen. Temporary permits are available to download from our website (www.wicormarine.co.uk/downloads) or can be obtained from the Marina Office.
6. If your package or deal includes a period of free storage ashore, please be aware that additional days will be charged at the Premium Storage Ashore Rate as published on our Price List. Similarly, vessels ashore after an initial period of 3 months will be charged the Premium Storage Ashore Rate.
7. Submit a Launch Request Form, only when your boat is absolutely ready to go back in the water.
8. When considering your launching requirements please remember that whilst we make every effort to launch your vessel on the preferred tides we can offer no guarantee beforehand.
9. If your boat is not ready for launching by the date you have selected and it is necessary to move it to gain access to the vessel behind - a fixed charge for each boat movement will be incurred.
10. Any vessel sold during the laid-up period may not be launched until she is accessible. If an earlier launch is required, any boat movements will be chargeable at the prevailing rate.
