IMPORTANT NOTES

1. Please familiarise yourself with the WicorMarine Yacht Haven Regulations, in particular Section 14 'Rules for Vessels Ashore'. The Regulations can be viewed on our website (www.wicormarine.co.uk). Copies are also available from the Marina Office.
2. Please be aware that we are not able to handle any vessels antifouled with silicon-based antifoul (Examples include Hemple Silic-One, Seajet Bioclean or similar.)
3. We are often not able to book a Lift, Scrub and Launch in on a specific date, it will be done at a time that fits around the yard team's schedule unless prior arrangements have been made.
4. Once the vessel is on the Sublift the yard team are not be able to clean underneath the straps of the Sublift as they aren't easily able to move them once a vessel is out of the water.
5. We do not require the headsail to be removed for a Lift, Scrub and Launch. Should the vessel need to be offloaded in the yard for any reason, the headsail will need to be removed immediately. A charge for the yard team's labour will be incurred to remove the headsail.
6. Please provide the office with your car registration number to gain automatic access to the barrier for the duration of your stay with us.
7. Please display a parking permit in your car windscreen. Temporary permits are available to download from our website (www.wicormarine.co.uk/downloads) or can be obtained from the Marina Office.

**PLEASE - DO NOT SUBMIT THIS FORM
IF YOUR BOAT IS NOT READY TO BE LIFTED**
